About this ebook

Halle Berry has said she has worn sunscreen since she was 16. Her routine, shared with InStyle and through her Re-Spin platform, is four simple daily steps plus a weekly homemade mask.

This ebook is an independent summary of publicly available interviews and articles. It is not affiliated with, authorised or endorsed by Halle Berry, their trainers, representatives, or any film studio. Names are used only to identify whose publicly reported routine is being described. Every reported fact is paraphrased and numbered to its source on the final page. Sections marked **Valtair adaptation** are our own general suggestions, not the celebrity's plan. This is general information, not medical, nutritional or dermatological advice — check with a qualified professional before changing your diet, training or skincare, especially if you are pregnant, take medication or have a health condition.

CHAPTER 2

STEP	REPORTED	YOUR VERSION
Cleanse	A gentle cleanser	A gentle cleanser

Make it yours: by skin type

The same idea, tuned to your skin. General guidance only.

SKIN TYPE	ADJUST LIKE THIS
Oily / acne-prone	Gel cleanser; light non-comedogenic moisturiser; niacinamide or salicylic acid a few nights a week; matte SPF.
Dry	Cream or milky cleanser; richer ceramide moisturiser; hydrating serum (glycerin / hyaluronic); cream SPF.
Combination	Gentle gel-cream cleanser; lighter moisturiser on the T-zone, richer on dry areas; SPF every morning.
Sensitive	Fragrance-free everything; fewer steps; patch-test new products for 3 days on the jaw; mineral SPF often tolerated better.

INTRODUCE ONE PRODUCT AT A TIME

Wait about two weeks between new products so you know what is helping — or irritating.

CHAPTER 4

The lifestyle side

- Sunscreen every day since 16.
- Meditation for a centred mind.
- Regular, varied training.

REPORTED DIY

Green tea weekly mask (as shared by Halle Berry)

- Brewed green tea (cooled)
- A pinch of turmeric
- A few drops of lemon juice
- Plain yoghurt

Mix into a loose paste, apply to clean skin for 10 minutes and rinse. Lemon juice can irritate or make skin more sun-sensitive — patch-test, use only at night, skip if you have sensitive skin, and always wear SPF the next day. Turmeric can stain temporarily.

MORNING / NIGHT CHEAT CARD

MORNING	NIGHT
Cleanse (or rinse)	Remove makeup & SPF
Serum (optional)	Cleanse
Moisturise	Treat (optional)
SPF 30+	Moisturise

CHAPTER 5

Read this first: cautions

- Patch-test every new product or DIY mix on your jaw or inner arm for 24–72 hours.
- Celebrity skin is also shaped by professional facials, make-up artists, lighting and editing — be kind to your own reflection.
- Retinoids and strong acids: avoid during pregnancy unless a doctor approves, and always wear SPF.
- Kitchen ingredients (lemon, raw spices) can irritate; skip them if your skin is sensitive.
- Persistent acne, rashes or pigmentation deserve a dermatologist, not more products.
