VALTAIR EVERYDAY · EBOOK

REPORTED DIET & TRAINING NOTES · ZAC EFRON

# The 12-Week Whole-Food Beach Shred

*Organic whole foods, rotating macros and a nine-day no-carb finish*

SOURCED FROM PUBLISHED INTERVIEWS · NOT AFFILIATED OR ENDORSED

# About this ebook

Zac Efron's lifeguard-movie physique was one of the most talked-about transformations of its year. The reported plan was simple in principle.

This ebook is an independent summary of publicly available interviews and articles. It is not affiliated with, authorised or endorsed by Zac Efron, their trainers, representatives, or any film studio. Names are used only to identify whose publicly reported routine is being described. Every reported fact is paraphrased and numbered to its source on the final page. Sections marked **Valtair adaptation** are our own general suggestions, not the celebrity's plan. This is general information, not medical, nutritional or dermatological advice — check with a qualified professional before changing your diet, training or skincare, especially if you are pregnant, take medication or have a health condition.

CHAPTER 1

# What was reported

| | |
|---|---|
| 1 | Trainer Patrick Murphy put Efron on a whole-food, organic diet for 12 weeks.[1] |
| 2 | He reportedly reached around 5% body fat.[1] |
| 3 | Efron: 'I am a firm believer in not eating chemicals' — and tries to know where his food comes from.[1] |
| 4 | He drank a minimum of three litres of water a day and used unflavoured whey with no additives.[1] |
| 5 | His protein, fat and carb intake was changed every two weeks; Murphy didn't reveal the specific daily plan.[1] |
| 6 | He reportedly went zero-carb for nine days before the shoot.[1] |

CHAPTER 2

# A reported day

No complete daily menu has been published in the sources we used — so we are not inventing one. Below are the reported building blocks and training notes.

*No daily menu was published in the source we used (JOE, citing Men's Fitness, 2016).*

## TRAINING NOTES

- Efron has said heavy powerlifting led to more injuries, so he shifted to more plyometrics and isometrics.
- Shredding to ~5% body fat was a short-term film goal, not a healthy year-round state.

CHAPTER 3

# The principles

Strip away the film budget, private chefs and trainers, and the reported approach comes down to a handful of repeatable rules. These are our plain-English take on them:

VALTAIR ADAPTATION

- 4–6 smaller meals built around lean protein.
- Weigh or measure portions for the first 2 weeks to learn sizes.
- Greens with most meals; carbs around training.
- One planned treat meal a week — then back to normal.

### PORTION GUIDE (HAND METHOD)

| FOOD | PER MEAL |
|---|---|
| Protein | 1–2 palms |
| Vegetables | 1–2 fists |
| Carbs | 1–2 cupped hands |
| Fats | 1–2 thumbs |

*Smaller or less active? Use the lower number. Larger or training hard? The higher one.*

# Your 7-day plan

An original, everyday-budget week inspired by the principles — **not** the celebrity's actual menu. Indian-kitchen friendly; swap freely.

**Style:** High-protein, portion-controlled week

| | MORNING | MIDDAY | EVENING |
|---|---|---|---|
| **Day 1** | Egg whites + 1 egg, oats | Grilled chicken / paneer + veg | Fish, rice (1 cup), greens |
| **Day 2** | Moong chilla + curd | Tuna / chana salad | Chicken tikka, quinoa, salad |
| **Day 3** | Greek yoghurt + berries + seeds | Soya chunks pulao (small) | Tofu / fish, sweet potato, veg |
| **Day 4** | Besan chilla + egg whites | Sprouts + cottage cheese | Chicken, brown rice, broccoli |
| **Day 5** | Oats + whey | Paneer bhurji + 1 roti | Fish curry (light), red rice, veg |
| **Day 6** | Idli + sambar + boiled eggs | Chicken salad wrap | Dal, sabzi, 2 rotis, curd |
| **Day 7** | Planned treat meal | Fruit + yoghurt | Light dinner: soup + grilled protein |

*Add vegetables generously. Vegetarian? Use paneer, tofu, soya, dal and curd for protein.*

CHAPTER 5

# Shopping list

One week, one shop. Tick as you go.

### PROTEIN

- [ ] Eggs
- [ ] Chicken breast / fish
- [ ] Paneer / tofu
- [ ] Greek yoghurt / curd
- [ ] Moong dal / chana / rajma
- [ ] Whey (optional)

### CARBS

- [ ] Oats
- [ ] Brown / red rice
- [ ] Multigrain atta
- [ ] Sweet potato
- [ ] Fruit (banana, apple, berries)

### VEG & FATS

- [ ] Spinach / greens
- [ ] Broccoli / beans
- [ ] Cucumber / tomato
- [ ] Nuts & seeds
- [ ] Cold-pressed oil (measure it)

### PREP IN 60 MINUTES (SUNDAY)

- Cook a big pot of rice or quinoa and one dal.
- Grill or bake 1 kg of protein; portion into boxes.
- Wash and chop vegetables for 3 days.
- Portion nuts and snacks into small bags.

CHAPTER 6

# Read this first: cautions

- Extreme leanness and a no-carb finish before filming are not things to copy.
- Whole foods, water and protein are the parts worth keeping.
- Celebrity transformations are short-term, supervised and often timed to a shoot. Sustainable progress is slower — and that is normal.
- Stop and see a doctor if you feel faint, unwell, or your relationship with food starts to feel stressful.

# 4-week tracker

Count the days per week you managed each habit (0–7).

| HABIT | W1 | W2 | W3 | W4 |
|---|---|---|---|---|
| Hit protein at every meal | | | | |
| Ate mostly whole foods | | | | |
| Drank 2–3 L water | | | | |
| Trained / walked | | | | |
| Slept 7+ hours | | | | |
| Weekly weigh-in / photo | | | | |

## NOTES

# Sources

All reported facts in this ebook were paraphrased from the following publicly available articles. Quotes are short and attributed. Read the originals for full context.
